

CON1: Power from transformer.

CON2: Internal micro processor programming.

CON3: Front lightning by leds power.

CON4 y CON4A: RS 485 ports for internal devices like display, MODEM, etc.

CON5 y CON5A: Communication MDB ports: J2000, BT10, etc.

CON6: Communication port for Executive coin mechanism.

CON7: Second port for RS232.

CON8 y CON8A (DIN5): First port for RS232 like Flash programming, data capture, etc.

CON9 y CON9A: External devices RS485 ports like for connecting machines or connection the machine to a net.

CON11: Volume control reading, air-break micro and temperature sensor.

CON13: Cup storage, cup dispenser, stir stick dispenser, sugar dispenser and the residual bin micro switch.

CON14: Coffee group, coffee grinder and dosage device connections (220VAC).

CON15: Boiler valves and boiler water pump.

CON16: Water inlet pump and water inlet from water tank.

CON17: 220VCA power board section.

CON18: Motor ajuste de molido.

CON19: Dispenser motors and position micros.

CON20: Soluble valves (24VCC).

CON21: Mixer motors (24VDC).

CON22: External refund motor.

CON23: Open door detection micro switch.
